

Kids help kids through Laps for Love

BY SAMMIE GRAMC
STAFF WRITER

Laps for Love is a fundraiser that the first-graders at Edgeworth Elementary host each year.

To raise money for The Children's Institute, the first-graders run laps in the gym.

With that money The Children's Institute can give free care to the children who need it.

Also, the money can be used to help families buy expensive equipment for their children's treatment.

Since 1994 the first-graders, their friends, families and teachers have raised \$37,913.25. This year, they raised \$4,642.80.

This program has made a huge difference.

Thanks to Mrs. Kim Wolfendale and all of the first-grade teachers at Osborne. Edgeworth's Laps for Love will continue, so more and more children can get the care they need.
